EDUCATION

SAN JOSE STATE UNIVERSITY, SAN JOSE, CA

Bachelor's Degree Computer
Engineering 2022

SKILLS

C++, Python, Git, HTML, PHP,
Verilog, Bootstrap, Circuit
Analysis, Unix

COURSEWORK

Digital Circuit Design

Engineering Reports

Data Structures and
Algorithms

Engineering Statistics

Advanced Algorithms

Software Engineering

Electronics for Computing
Systems

PROJECTS

NS3 NETWORK SIMULATOR

[HTTPS://GITLAB.COM/NS3SIM/SIMULATIONS](https://gitlab.com/ns3sim/simulations)

- Developed simulator to realistically calculate data transfer and delay over an LTE network
- Generates animated results

ONLINE GROCERY STORE

[HTTPS://GITHUB.COM/KPHAM56/ECOMMERCE-OFS](https://github.com/kpham56/ecommerce-ofs)

- Developed the Cart and Checkout page using HTML and PHP
- Input verification for forms

EXPERIENCE

EDLYFT, SAN FRANCISCO, CA

Student Mentor

AUG '21 – PRESENT

- Prepare students for interviews by reviewing core concepts and leading mock interviews

NASA ARC, MOUNTAIN VIEW, CA

Software Engineering Intern

JUNE '21 - AUG '21

- Collaborated with peers to develop an LTE Simulation using NS3 and NetAnim
- Presented weekly findings in standup
- Attended weekly cybersecurity meetings

VARIAN MEDICAL, PALO ALTO, CA

Marketing Assistant

DEC '20 – FEB '21

- Tracked revisions across items
- Updated item descriptions and part numbers throughout marketing catalog
